# Ikebana

Told according to the principles of the traditional Japanese art of flower arrangement, *Ikebana* is an ingenious, funny and moving play about a family of Chinese American women confronting their pasts, their familial obligations, their secrets and themselves.

This production is made possible with generous support from the Center Theatre Group/Mark Taper Forum and its programs, Asian Pacific American Friends of Center Theatre Group and the Asian Theatre Workshop, and is funded in part by the AT&T/EWP New Voices Project, a new program established to develop emerging playwrighting talent and strengthen EWP's literary talent.
